To whom it my concern:

Tasco Plumbing and Mechanical Corporation has worked with Gryphon Contractors on several past and present construction projects from corporate office buildings to high rise condominiums. Gryphon Contractors, in difficult circumstances, has demonstrated its wiliness to reasonably workout differences with subcontractors without threatening the value of the project. The level of commitment to excellence far exceeds any other general contractor that Tasco has been associated with.

The key factors that make working with Gryphon Contractors a success are the following:

- Quality of their project team
- Scheduling and coordination with subcontractors
- Safety consciousness
- Document control and processing
- Overall commitment to the project

It is with great pleasure that I can share my experience with Gryphon Contractors and its team members. I look forward to working with Gryphon on many more projects in the years to come.

Sincerely,

A handwritten signature in black ink, appearing to read "Carlos Pajon". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Carlos Pajon
President

vision. focus. done.
